

OUR GOAL

We aim to teach our students the importance of international cooperation and friendships, to show a sense of responsibility as global citizens, and to teach UNESCO world heritage monuments in groups and in collaboration.

ABOUT OUR PROJECT

Competence: Our activities will develop proficiency both the native language and the partner language.

Skills: Active communication, research, listening, speaking, reading and writing skills

Intercultural competence: Increased awareness and understanding of different cultures.

Skills: Ability to understand and appreciate cultural differences, respect and empathize with different perspectives.

Digital literacy:

Competence: Ability to use online platforms for communication and collaboration.

Skills: Navigate virtual spaces, use digital tools for presentations and participate responsibly in online dialogue.

Collaborative problem solving:

Competence: Ability to work collaboratively with peers from different cultural backgrounds

Skills: Collaborative problem solving, negotiation and compromise to overcome language barriers and achieve common goals.

Critical thinking Competence: Development of critical thinking skills in a multicultural context.

Skills: Analyze and reflect on cultural representations.
